Welcome to Athens, an amazingly weird funky ugly cute place, full of history, culture, food, crazy people and awesome experiences to live wherever you look!

We are students living in Athens and we are in love with it! That's why we created this tour! We want to meet you and explore the city with you!

This is a walking tour, so be prepared for a bit of walking!

The route can always change depending on your interests, so inform us when we start!

Do you want to:

discover famous and secrets spots of the city?

experience the city with locals?

try the best food and sweets?

get suggestions for the real nightlife?

learn tricks to save money

get suggestions on further travelling in Greece

and most important...have FUN while doing so?

If YES this tour is for you!

FACT is a walking tour in the heart of the city that will take you through the REAL Athens! Your book guide may be better for the Acropolis, but leave the food, fun and nightlife to us! We will visit neighborhoods, not museums ;)

If you like the tour, you can support it with tips and help us continue ;)
